

# CLMS CHESS CLUB

**WANT TO LEARN THE GAME OF CHESS  
OR LIKE TO PLAY CHESS?**

## **WE'RE DEVELOPING A CHESS CLUB AT CLEMENTS**

Chess has been played for thousands of years by young and old. It's the one game that almost perfectly mirrors life. From the student who's never played before to the experience and more seasoned player, all are welcome. As a team, we'll go through the basics of the game all the way through advanced techniques. Chess has been proven to be beneficial to kids in numerous ways to include higher concentration, memory development, developing logic, critical thinking skills, problem-solving, creativity, encourages and rewards hard work, and helps kids think through complex problems. If you'd like your young scholar to learn chess or if they're interested in learning chess themselves, this is their opportunity.

We're looking forward to teaching them and watching them grow. If there are any questions, please contact Mr. Roussell, 7<sup>th</sup> grade Social Studies Teacher in Room C7.

[roussell.david@newton.k12.ga.us](mailto:roussell.david@newton.k12.ga.us)

**Play at least two  
days a week on  
Tuesdays and  
Thursdays!**
